

Discover. Design. Deploy. Bringing Microgrids to Life

RE+Source PRO is the ultimate microgrid product and services resource from RE+ Events. Designed by Direct Energy Partners, this new platform will connect you with a comprehensive network of leading manufacturers and their cutting-edge solutions. Whether you're searching for state-of-the-art energy generation, storage, inverters & converters, microgrid controllers, or distribution equipment, RE+Source PRO has you covered. Discover a curated selection of products from industry leaders, gain access to exclusive case studies that highlight real-world success stories, and streamline your project planning with intuitive tools tailored to your needs. With RE+Source PRO, you can save time, reduce complexity, and confidently navigate the evolving landscape of microgrid solutions—all from a single, trusted platform.

WHO BENEFITS FROM RE+SOURCE PRO?

Manufacturers: RE+Source PRO extends the reach of manufacturers beyond the show floor, offering increased visibility to a global audience year-round. This platform allows manufacturers to showcase their products, provide training materials, share in-depth product knowledge, and offer direct support to customers. By strengthening their reputation and building lasting connections, manufacturers can drive repeat business and expand their market presence.

Designers: With RE+Source PRO's integrated design platform, designers can visualize how products fit into specific projects, search reference designs, and create concept one-line drawings, all in one place. This streamlines the design process, minimizes errors, and reduces rework, allowing for faster project timelines and better client outcomes.

Installers: RE+Source PRO saves installers time by consolidating product information from multiple manufacturers in one centralized platform. It simplifies the process of finding and comparing products, ensuring compatibility and quality. By using the right products and optimized designs, installers can reduce material waste, avoid unnecessary purchases, and deliver higher-quality installations.

Business Developers: RE+Source PRO empowers business developers by generating shareable, professional designs and project documentation tailored for clients, architects, and contractors. This improves collaboration, enhances client presentations, and ultimately boosts profitability by streamlining workflows and ensuring seamless project execution.

With RE+Source PRO ...

- » Discover products within this curated library of top manufacturers and their applications.
- » Explore tools that provide resources designed to boost your business development and sales efforts with multiple companies.
- » Review case studies, including real-world examples of successful infrastructure.
- » Examine design integration and equipment compatibility with streamlined tools for planning and execution.
- » Connect designers directly with manufacturers and service providers.

ACCESS

General user access

RE+Source PRO is open to everyone to search and design.

Manufacturer and service provider listings

If you're a manufacturer or service provider looking to add your listing, be sure to take advantage of these complimentary and introductory rates:

Sign up before March 31, 2025 and get 6 months for free!

» then \$299/mo until December 31, 2025

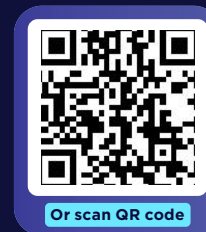

Sign up between April 1 - September 30

» \$299/mo until December 31, 2025

Sign up after September 30: \$499/mo

For catalog user access, tutorials, or to publish listings as a manufacturer or service provider, visit:

RE+Source PRO is maintained by Direct Energy Partners. The RE+Source PRO technical information framework is based upon EMerge Alliances' Interoperability Data Model (IDM) standard which is regularly updated by the members of its IDM standards committee. Questions about RE+Source PRO should be directed to Direct Energy Partners. For more information, please email sales@directenergypartners.com.

About RE+ Events

RE+ Events is the global event and association management organization specializing in the clean energy industry. Our flagship event, RE+ (formerly SPI), is the largest renewable energy event in North America. The RE+ Events portfolio also includes events within the U.S. focusing on trends and policies in specific states/regions, and international events that bring together clean energy leaders in up-and-coming markets across the world.

About Direct Energy Partners

At Direct Energy Partners, our mission is to electrify at the speed of thought. We are committed to accelerating the deployment of renewable energy microgrids, making sustainable power accessible to everyone on the planet—and beyond. Our products and platforms empower humanity to design and deploy microgrids at unprecedented speeds. By simplifying complex design, engineering and procurement processes, we drive the rapid adoption of clean energy technologies and accelerate the transition to a more sustainable future.

About EMerge Alliance

The EMerge Alliance is a membership-based, not-for-profit industry association formed in 2008 to create and promote the adoption of new vanguard standards for direct current (DC) and hybrid AC/DC power infrastructure in buildings, neighborhoods and communities. The overarching goal of these systems is to provide greater power resiliency, surety, and equity. Learn more about the membership categories and benefits at www.emergealliance.org.
